Alright game but the fact that the last level takes 1000+ attempts ruins the rest of it. It's very clunky and such but that's the charm, but the fact that 90% of the time is gonna be on the last level ruins it.. This game is fun, not gonna lie, but having to get into the cart is a NIGHTMARE. It's fun when you finally get into the cart, but steering is wonky. Great game, but devs, plz fix ;-;
